Message from Principal

GPS aims to mould its students to achieve global standards of excellence by widening their horizons of learning, opening new vistas and broadening their power to think. Triple 'S' theory i.e. studies, stage & sports is adopted as an instrument to bring out desired results from blooming buds of this region. We are trying very hard to create a small world for each child to bring out the latent talent of young scholars. An aura of positivity and confidence is created at GPS by etching the " nothing is impossible and you can do it" attitude . We strongly believe that children are like wet cement, whatever falls on them makes an impression. I am sure that GPS will emerge as a light house in the days to come.
